FOOTBALL REFEREE FAILED TO ENFORCE PROPER CONDUCT

The results of the two games played in the Grammar Schools Association League yesterday put the Kamehameha School ahead, Kauhuanu school having dropped to second place by reason of the draw with Punahou.

The game was between Punahou and Kauhuanu, on the former's ground, was played in a very poor spirit, the players on each team so far forgetting themselves as to indulge in language quite out of place on a football arena. In this respect the Punahou boys are alleged to have been the greater offenders, but the referee, Eddie Moore, could easily have put an end to anything of a similar nature had he chosen to exercise his undoubted prerogative and have ordered the offenders, off the field. The game was a draw, neither side succeeding in scoring, and after the game there was some talk of a free for all fight, but fortunately for both teams

this was quelled by the intervention of Professor Fitz.

The match between the Kamehameha School and Iolani resulted in a three-nil victory in favor of the Kamehameha boys. Though defeated the Iolani took their drubbing in the best possible spirit, thus setting an example which might well be followed by the disputing teams in the Association.

The competition table is now as follows:

Teams.	W	L	D	F	A	Pts
Kamehameha	3	0	0	7	0	6
Kauhuanu	2	0	1	6	0	5
Punahou	1	0	2	2	1	4
Normal	1	0	1	1	0	3
St. Louis	0	1	1	1	3	1
Iolani	0	2	1	0	3	1
Central	0	2	0	0	4	0
Royals	0	2	0	0	6	0

THE HEALANIS ELECT OFFICERS

The Healanis Yacht and Boat Club held its annual meeting of members in the club-house last night, and though the attendance was not as large as might have been expected, the outlook, as disclosed by the reports of the secretary and treasurer, showed the club to be in a flourishing position. The secretary's report dealt with the condition of affairs since the 1908 committee was deposed. After reciting the steps which had been taken to put the club upon a sound financial footing the report stated that during the year under review there had been eighty-five new members enrolled, twenty-one old members had been expelled and there had been six resignations, a net gain of fifty-eight. The expulsions were for non-payment of dues. The work of revising the by-laws of the club had been suspended owing to the resignation of the chairman of the revision committee, but it was suggested that the matter be taken up by the new committee and carried through to a satisfactory conclusion.

To cope with the increased membership, eighteen new lockers and five new showers had been added, and several improvements were made in the club's premises. The report reviewed briefly the various sporting events of the past year, and briefly mentioned the proposal to join the Amateur Athletic Union. The fact that the A. A. U. was not very well organized was the reason the Healanis stood aloof, but in future if the A. A. U. is recognized by the home body the Healanis will probably join in.

Correspondence relative to the new boat ordered from Alf. Rogers was published, showing that the new boat is expected to reach here early in the new year.

The treasurer's report showed a credit balance of \$390.49. Receipts during the year amounted to \$2580.15, of which \$2189.66 was expended. Both reports were passed by the members.

The election of officers for the coming year was proceeded with without much discussion, the recommendations of the outgoing committee being accepted. In only one case was it necessary to proceed to ballot. Charles King being proposed for auditor in opposition to George Galt, last year's treasurer. Galt was elected by a majority of thirteen votes out of thirty-five voting.

The following appointments were then made:

President: James E. Jaeger, vice, W. F. Heilbron.
Vice-president: A. H. Tarterton, vice A. T. Longley.
Secretary: A. T. Longley, vice J. B. Lightfoot.
Captain: Lawrence Cunha.
Vice-Captain: C. E. Mayne, vice L. Cunha.
Commodore: Walter Rycroft, vice J. N. Densham.
Vice-Commodore: Paul Jarrett, vice George Galt.
Auditor: George Galt, vice H. Lemke.

The majority of the cases in police court were again continued this morning owing to District Magistrate Lymer being engaged in the Supreme Court. Judge Lymer announced that he would probably be free after to-day.

MARKET REVIEW

(Continued from page five.)

the demand, so far as the Eastern refiners are concerned, can be expected. Some American Refined Sugar that was bought last summer, for shipment abroad by European speculators, is now offered for re-shipment to the United States, and could be bought at the equivalent of 4.49c duty paid New York, provided the duty assessed was on the same basis as the draw-back allowed when the Sugar was exported. The world's visible supply is 740,000 tons, as compared with 700,000 tons a year ago. Messrs. Willett & Gray figure the total stocks and afloats together show a visible supply of 749,522 tons, an increase of 85,248 tons from last year. The total stocks in the United States and Cuba together are 147,522 tons, an increase of 10,248 tons from last year. The estimated afloats to the United States are 37,000 tons, against 130,000 tons last year.

Cuba:—From the Provinces of Pinar del Rio and Havana come reports that the cyclone has caused some damage to the cane, but the general impression is that this will have very little if any effect on the ultimate output of the crop. It will be difficult if not impossible to make a reliable estimate of the crop until after the first of December.

Europe:—Licht cables say that the weather is favorable, both for the growing beets and harvesting and the result of the extremely favorable weather abroad is shown in the declining London market, to-day's closing being on the following basis:

October buyers, 8s 8d, equals 3.81c, duty paid New York.

November buyers 8s 8 1-4d, equals 3.81c, duty paid New York.

January-March buyers, 8s 10 3-4d, equals 3.85c, duty paid New York.

May buyers, 9s 9 3-4d, equals 3.89c, duty paid New York.

Javas:—There has been no change in the position of these sugars. The cargo at Delaware Breakwater remains unsold, and there are several cargoes due to arrive early in November, that are also looking for buyers.

Louisiana:—The first arrivals of new crop sugars have been coming into New Orleans during the past week. It is thought that all the mills will be working the early part of November, and that some of the sugar purchased by Messrs. Arbutnot Brothers, for shipment from New Orleans, will be received in New York between the 10th and 15th of November.

Domestic Beets:—This morning it Pittsburgh to 4.70c. After the decline in the eastern markets, the price for the market west of Chicago was reduced to 4.70c. and it is thought that the Michigan refiners, who are now quoting 4.55c, for the territory between Pittsburgh and Chicago, will meet this price, either late to-night or early to-morrow, in consequence of which the market at the close is very much unsettled.

Refined sugar:—Until this morning eastern refiners, with the exception of the Federal Sugar Refining Company, were quoting 4.30, for granulated, with the Federal Sugar Refining Company quoting the price of 4.75. Shortly after the opening the Federal Sugar Refining Company declined to 4.65c, and all other refiners did the same. This afternoon the Federal Sugar Refining Company made the decline to the basis of 4.60c, with the other refiners doing likewise, so at the close all refiners quote on the basis of 4.60c, for granulated. Even at the decline the market does not seem to have steadied, and it would not be surprising to see further declines in the near future.

Yours very truly,
THE FEDERAL REPORTER.

BALLINGER HITS HIS ACCUSERS

WASHINGTON, November 6.—Blaming the agitation since the withdrawal of all Alaskan coal lands in 1906, as the cause of keeping the question unsettled and also for the inaction of Congress, Secretary Ballinger tonight made public a statement in which he assails those who charged him with being an opponent of conservation and blames them for the unsettled conditions in Alaska.

The statement was brought out by the recent indictments against Alaska coal claimants. In this connection the Secretary says: "These are but further steps in the effort being made by the Government to clear and settle this whole question."

Since the withdrawal order was made to enable Congress to decide upon a definite policy of dealing with this resource, the Secretary says, "there has been throughout the country much agitation regarding Alaska coal—an agitation a large part of which is based on false statements."

Causes Inaction of Congress.
"Whatever has been the motive behind the agitation it has resulted in keeping the whole question unsettled and is largely blamable for the inaction of Congress."

The Secretary points out that there are two essentials for clearing up the situation:

"First, an early prosecution and disposition of pending cases, investigating charges of fraud and conspiracy against existing claimants; and, second, Congressional action definitely deciding the manner in which Alaskan coal lands may be acquired."

As the Pacific Coast is obliged to draw its goods from the Atlantic Coast, the Secretary says, the charge has arisen that the "interests" are the beneficiaries of the policy which prevents the opening up of large fuel deposits.

"There has been much talk," Secretary Ballinger continues, "of the 'interests' opposing that so-called conservation which makes for reservation rather than use, but, as a matter of fact, the 'interests' naturally favor rather than oppose, the reservation and non-use idea."

No Conservation Here.
"To my mind, a continuation of the present situation is the direct antithesis of rational conservation. Consider that for each five tons of Atlantic Coast seaboard coal transported to the Pacific Coast one ton is used up in transportation, or a total waste of 20 per cent and you will see that existing methods do not conserve, but destroy."

"From an economic point of view it is intolerable that this waste should continue and that a large region should be handicapped, in its legitimate development and the proper use of its resources by the failure of the government properly to settle the problems of how to use these resources."

"It is most sincerely to be hoped that Congress will determine early in the coming session the manner in which Alaska coal may be taken out and placed in the markets of the Pacific Coast before those markets are absorbed by foreign importations."

TOSSED A COIN FOR VERDICT.

POTTSVILLE, Pa., Nov. 1.—The court today refused John F. Whalen, a lawyer, permission to question the jurors who rendered a verdict against Whalen's client.

The case was that of Thomas Edwards, of Shenandoah, against Harry Meyers, of Minersville.

Whalen, in seeking a new trial, alleged that the jury arrived at its verdict by tossing a coin, having been informed by a court officer that they might do this, if necessary, in order to agree. The jury had been deadlocked for 48 hours.

The court held that if lawyers were permitted to interrogate jurors as to the manner in which they arrived at their verdict, there would be no end to certain suits.

IN THE CIRCUIT COURT OF THE
First Judicial Circuit, Territory of Hawaii.—At Chambers—No. 4319—In Probate.

In the matter of the Estate of Archibald Scott Cleghorn, Deceased. Documents purporting to be the Last Will and Testament and a Codicil thereto of Archibald Scott Cleghorn, late of the City and County of Honolulu, Territory of Hawaii, deceased, having on the 8th day of November, 1910, been presented to said Probate Court, and a Petition for probate thereof, praying for the issuance of Letters Testamentary to be granted to Percy T. Cleghorn, A. G. M. Robertson and James E. Jaeger, all of Honolulu deceased, having been filed by the said A. G. M. Robertson;
